

CERTIFICATE OF WARRANTY

Severe Service Valves for Severe Industries

SK Valve offers up to a 2 year limited performance warranty on valves in service. The factory will review all applications prior to acceptance of the application into the warranty plan. Proper execution of a data sheet is required. Warranty is limited to replacement of the valve within the warranty period. Installation, removal and miscellaneous costs are not covered under the warranty. Valves that fail in service are to be removed and returned to the factory for proper warranty credit.
