Water Efficient Fixtures and Landscape Conservation Rebate Application

Name on Account: _____
 (Person to receive credit)

Contact Person: _____ Owner Tenant

Day Phone: _____ Cell Phone: _____

Service Address : _____

Customer Account Number: _____ Date of Replacement: _____
 (Located on your water bill)

Washing Machine – commercial (Up to \$200 Credit)
(Energy Star® approved)
 New Manufacturer: _____
 New Model: _____
 Old Model: _____

Washing Machine – residential (Up to \$100 Credit)
(Energy Star® approved)
 New Manufacturer: _____
 New Model: _____
 Old Model: _____

Toilet (Up to \$200 Rebate)
(Replacing over 1.6 gallon per flush or higher with HET)
 Old Manufacturer: _____
 Old Model: _____
 New Manufacturer: _____
 New Model: _____
 Purchase Price: _____

Toilet (Up to \$100 Rebate)
(Replacing 1.5 or 1.6 gallon per flush with HET)
 Old Manufacturer: _____
 Old Model: _____
 New Manufacturer: _____
 New Model: _____
 Purchase Price: _____

Urinal (Up to \$200 Rebate)
(Replacing water-using urinal with waterless urinal)
 Old Manufacturer: _____
 Old Model: _____
 New Manufacturer: _____
 New Model: _____
 Purchase Price: _____

Urinal (Up to \$100 Rebate)
(Replacing higher volume urinal with high efficiency urinal)
 Old Manufacturer: _____
 Old Model: _____
 New Manufacturer: _____
 New Model: _____
 Purchase Price: _____

Weather Based Irrigation Controller (Up to \$500 Rebate)
(Replacing old controller with 'weather based' controller)
 Old Manufacturer: _____
 Old Model: _____
 New Manufacturer: _____
 New Model: _____
 Purchase Price: _____

Turf Replacement (\$1/ft² up to 1000 ft² - \$.30 after)
(Replacing lawn with artificial turf or xeriscaping)
 Old Lawn Type: _____

 Landscape Area: _____
 Rebate Amount: _____

Cistern Installment (\$25 per 100 gallons up to \$500)
(Installing a cistern to catch rain for landscape irrigation)
 Cistern Model: _____
 Storage Capacity: _____
 Installed By: _____
 Rebate Amount: _____

Water Efficient Fixtures Account Credit Program Terms and Procedures

Devices must be purchased and installed no more than 90 days prior to submitting application

- A HET uses an average of 1.28 gallons per flush or less. A high efficiency urinal uses .5 gallons per flush or less.
- Confirm that the device(s) is/are identified on the list of approved products. For ULFT/HET/DFT/URINAL rebates, the model numbers for both tank and bowl must be on the list. For clothes washer(s), the device(s) must have a water factor of 6.0 or less.
- Please visit www.svwd.org or call the district at (831) 438-2363 to confirm eligibility for toilet and washer rebates.
- Smart controllers estimate or measure depletion of available plant soil moisture in order to operate an irrigation system, replenishing water as needed while minimizing excess water use. A properly programmed smart controller requires initial site specific set-up and will make irrigation schedule adjustments, including run times and required cycles, throughout the irrigation season without human intervention.
- Credit of \$1 per square foot up to 1000 square feet of high water using lawn replaced with artificial turf and/or drought tolerant plants. Each additional square foot will qualify for a \$0.30 credit up to \$2,000.
- Replacement turf must be pervious and participants must agree to leave the new landscape or turf in place for a minimum of five (5) years.
- Rebates of \$25 for each 100 gallons of rainwater storage capacity in a cistern system (up to a maximum storage capacity of 2,000 gallons). Rebate applies to material only, no labor costs. Original receipt must accompany rebate credit application. Customer must allow a post installation inspection. Backflow protection is required on any storage tank to be used to store rainwater exceeding 250 gallons. Follow all permitting and zoning laws. A permit from the planning department at the County is required if container is over 5000 gallons or the height to width exceeds a 2 to 1 ratio.
- Mail or fax your completed rebate application along with receipt to Scotts Valley Water District.
- Applications for rebate must be submitted within 30 days of the purchase date shown on the receipt.
- Approved applications appear as a credit applied directly to your account. Under no circumstance does the district issue cash or check refunds.
- Rebate credits are applied to the account associated with the service address where the replacement was made. If you are a property owner and you are applying for a rebate on a replacement made at a location where the water bill is in the tenant's name, the rebate will be applied to that tenant's account.
- A representative of SVWD must be permitted to inspect the property to verify installation if necessary.
