

Scotts Valley Water District Weather-Based Irrigation Controller Rebate Requirements

Weather Based Irrigation Controllers (WBICs)

Install an approved Weather Based Irrigation Controller and qualify for a credit of either \$75 or \$125. Approved credit is applied to your water bill. To schedule a pre-installation inspection call 831-438-2363.

What are the rebate requirements?

- The controller must be used in retrofitting an existing landscape previously irrigated using a timer, traditional irrigation controller, or similar device or irrigated without a WBIC.
- Controllers must be independently tested and approved by the Smart Water Application Technology.
- WBICs which rely on a sensor based system are eligible for a credit of up to \$75.
- WBICs which rely on a signal based system are eligible for a credit of up to \$125.
- No credit will be given for labor, programming, signaling fees or for other installation or maintenance costs.
- Original receipt must accompany rebate credit application.
- Customer must allow a pre and post installation inspection.

Approved Weather-Based Irrigation Controllers
